1. Atal Bhujal Yojana and Its Background

Atal Bhujal Yojana (or, Atal Jal) is a groundwater management scheme launched by honorable Prime Minister Narendra Modi on the 95th birth anniversary of former Prime Minister Atal Bihari Vajpayee on 25 December 2019. The purpose of the scheme is to improve groundwater management in seven states of India, In these selected seven states Haryana is one where Atal Bhujal Yojana is being implemented by the I & WR department.

The primary objective of this Scheme is “to improve the management of groundwater resources in the water-stressed areas of the selected States”. Atal Jal is targeted at sustainable ground water management, mainly through convergence among various on-going schemes with the active involvement of local communities and stakeholders.

Atal Bhujal Yojana (Atal Jal) aims to demonstrate community-led sustainable groundwater management that can be taken to scale. The scheme has been designed as a pilot with the principal objective of strengthening the institutional framework for Participatory Groundwater Management (PGWM). It also aims to bring about behavioral change at the community level through awareness programs and capacity building to foster sustainable groundwater management. Atal Jal is targeted at sustainable groundwater management, mainly through convergence among various ongoing schemes with the active involvement of local communities and stakeholders.

Ground water has played an important role in increasing food and agricultural production, providing safe drinking water and facilitating industrial development in India.

It contributes fresh water to meet the requirement of nearly 65% of total irrigated area, nearly 85% of the rural drinking water supply and 50% of the urban drinking water needs of the country.

Over the last three decades, the rapid expansion in the use of groundwater, primarily for irrigation, has contributed significantly to its agricultural production and overall economic development.

This has also resulted in India becoming the largest ground water extractor in the World.

The purpose of the scheme is to improve groundwater management in seven states of India, in these selected seven states Haryana is one of the where Atal Bhujal Yojana is being implemented by the I& WR department.

Overall, the ABHY project in Haryana is a significant step towards addressing the serious issues related to ground water management in the state, the involvement of local communities and the promotion of sustainable groundwater management practices will ensure the long-term sustainability of ground water resources in the state

Objective:

- 1) The objective of the Atal Bhujal Yojana is strengthening of the institutional framework for participatory groundwater management and bringing about behavioral changes at the community level for sustainable groundwater management.
- 2) The scheme aims to fulfill its goals through community-led participation and management actions, integrating existing and new central and state schemes. Its focus areas also include promoting supply side interventions like rejuvenation of ponds, construction of recharge structures along with implementing intensive Capacity Building activities for creating mass awareness and behavior change.
- 3) Overall, the ABY project in Haryana is a significant step towards addressing the serious issues related to ground water management in the state, the involvement of local communities and the promotion of sustainable groundwater management practices will ensure the long-term sustainability of ground water resources in the state.
- 4) **It includes 14 districts, 36 blocks and 1656 Gram Panchayats in the state of Haryana.** The States have been selected according to the degree of groundwater exploitation and degradation, established legal and regulatory instruments, institutional readiness, and experience in implementing initiatives related to groundwater management.

2. Need of Capacity Building at Gram Panchayat level under Atal Bhujal Yojana

- As Atal Bhujal Yojana is a scheme aimed primarily at inculcating behavioral changes among the stakeholders to facilitate judicious use of groundwater, training and capacity building have a vital role to play in ensuring its success. Capacity development activities aim to strengthen individuals, groups, institutions, organizations, or systems to make them more effective program partners. The goal of the capacity development program under the Atal Bhujal Yojana is to maximize development effectiveness, efficiency, sustainability, and ownership. It is done by ensuring that all stakeholders can manage and deliver intended products and services to their target groups practically, efficiently, resilient, and self-sufficiently. Training is one form of capacity building, which mainly aims at skill development. Capacity development also includes study or exposure visits and cross learning through various methods.
- **GP level Trainings:** Empowering the community through a series of cascading training and

capacity-building activities is one of the core activities under Atal Jal. Capacities required at GP level include skills in community mobilization, data collection (both technical and non-technical), water budgeting and preparation of Water Security Plan (WSP). Key persons at this level include elected members of GP/Block, Water Management Committee (WMC) / Village Water and Sanitation Committee (VWSC), Water User Association (WUA). Women drawn from the existing Self-Help Groups (SHGs) would constitute a substantial number of the WMC/VWMC.

- WMC/VWMC is seen as the driver of community participation in the program with hand holding by District Implementing Partner (DIP) and District Program Management Unit (DPMU). Local trained volunteers (Bhujal Mitra) / Community Resource Persons (CRP) required to collect groundwater level data, rainfall and water quality in their villages. They need to be trained to use the equipment's procured under the scheme to measure key parameters such as groundwater level, rainfall and key water quality parameters and interpret to make sense of the data from a village perspective of what is happening to village groundwater availability in terms of quantity and quality.
- The volunteers are expected to disseminate the information among the community to enable them to take informed decisions in activities e.g. farming that involves groundwater use. The data collected shall also be used in water budgeting and development of WSPs.

Target Groups -

- 1) Sarpanch/Members of Gram Panchayat
- 2) Gram Panchayat Officials
- 3) Members of Water and Sanitation Committee
- 4) Progressive farmers, Well owners
- 5) Members of SHGs, Youth Clubs
- 6) AWW, ASHA Worker, House Wives etc.

Brief Introduction of CB Agency:

Yuva Mitra is a non-profit organization registered under various acts, including the Bombay Public Charitable Trust Act, Societies Registration Act, and Foreign Contribution (Regulation) Act.

Vision is a development process centered on people, especially those from marginalized sections of society, where their involvement in decision-making and action is prioritized over a welfare-based approach.

Mission is to promote the socio-economic development of rural communities, particularly those from marginalized sections, through land-water development and management,

agricultural and related livelihood activities, and education, all while keeping people at the forefront of decision-making and action.

Goals aim to ensure the socio-economic development of 1 million unique households in India, with a target of achieving a minimum income of Rs. 1 LPA for each household in the next 10 years.

Over the past 27 years, Yuva Mitra has worked in Maharashtra and Haryana with Core Interventions and 10 other states with Knowledge Partnerships, Training, Handholding and Technical Support. Yuva Mitra primarily works in four core areas Water Resource Development & Management, Livelihood & Life skill Development, and Health & Education and Institution Building & Agricultural Development benefiting more than 1,40,000 families. Yuva Mitra was founded in 1995 with initiatives like Balmitra and Nisarg Mitra, aimed at improving rural children's skills and protecting biodiversity, respectively. Since

Organizational Profile

then, we have focused on water and livelihood development, including the revival of defanged DBI systems and participatory irrigation management through the formation of Water User Associations. Additionally, Yuva Mitra has expanded its focus to create livelihood opportunities for landless families through Goatery-Based Livelihood for Women and has broadened its scope through the Jalsamruddhi program and water development activities.

Organization has strong approach in Health & Education portfolio through implementation of Malnutrition eradication Arogya Mitra, menstrual hygiene and management, WASH, and children education Barakhadi express program. We have special focus on Nandurbar District with Lakhpati kisan & Tribal Development Fund project with Shabari Mahamandal and NABARD respectively for nurturing sustainable ecosystem for tribal community.

Yuva Mitra is appointed as a Recourse Support Organization by NABARD for the

development of Farmer producers Organization in Maharashtra state. Yuva Mitra is working for an institution-building of farmers like WUAs, FPC/FPOs, Farmers clubs, and Joint Liability group.

Role Of CB Agency

As for capacity building trainings in the water stressed blocks of Haryana's 14 districts I&WR department created 3 clusters in which Yuva Mitra allotted to work in cluster no 3 which covers 3 districts 10 blocks (Bhiwani, Mahendergarh & Ch. Dadri) in which the role of Yuva Mitra was:

- Rapidly up scale the capacity building processes and methods using the full potential of physical and virtual space.
- Design, develop and implement capacity- building programs to create new generations of responsible and responsive leadership in the water sector at community levels.
- Facilitate participants to gain insights, enhance their knowledge, further develops of skills and awareness about new practices.
- Stimulate cross-learning about latest technologies, innovations, and best management practices in the groundwater sector by organizing field exposure visits for key personnel involved in planning and execut
- Development of high-quality video and audio reading and learning material to not only make text- centric content more readable, digestible and memorable but also to craft compelling messages, related to the water sector, that speak volumes.
- Document case studies, success stories and best practices in the sector for wider dissemination and;
- Promote accelerated implementation on the scale and with speed' by enabling appreciation of professional requirements as well as sensitization to the socio-economic, technological environment.

Area of Operation /Project Area - Bardha block

The target was to conduct total 282 GP level trainings (6 trainings x 47 GPs). The detail of the same is as under

Sr N O	Name of the Gram Panchayat	Number of Trainings to be Conducted	Sr. No	Name of the Gram Panchayat	Number of Trainings to be Conducted

Pre-Training Task

State level orientation of CB by SPMU At Sichai Bhavan

A state level orientation of CB agency- Yuva mitra was conducted at Sinchai Bhawan on 18th October, 2022. The objective of the orientation was to give the basic knowledge of ABY and the rural community. The following points were discussed:

- Schemes going on for the groundwater management (Haryana Specific)
- Farmers role in groundwater management
- Women role in groundwater management
- VWSC Members role (all VWSC)

1. Water level data collection

2. Water quality data analysis

3. Rain gauge data collection

4. Water flow meter data collection

- How future generations are getting ready and understanding the problems related to Groundwater?
- Demand Side & Supply side
- Community as a whole and their role in Gram Panchayat water management

Training Need Assessment (TNA), its findings and preparing the training design:-

After the signing of the Letter of Agreement, training needs assessment were conducted on 23rd November at MiniSecret in Ch. Dadari .

The main objective of the TNA was to get the basic knowledge of rural community in behavioral habits in using water knowledge about ground water, ground water situation, tradition agriculture and modern agriculture practices adopted by rural farmers through line departments before going to conduct the Gram Panchayat level trainings by Yuva Mitra in the 1 blocks 47 villages 7 line departments 10 officials From ch. dadari were participated in these TNAs . The line departments gave their valuable suggestions & inputs before conducting upcoming GP Level trainings. during open discussion there was a brain storming session about the behavioral practices about water using habits and awareness water conservation & rainwater harvesting towards ground water of the concern districts community people.

List of participants who have attended TNA:

Sr. No.	Date of TNA conducted	Venue	Name of the Officer/Official	Designation	Department
1	23/11/2022	Mini secretiet meeting hall	Vinod kumar	JE	Panchayti raj
2	23/11/2022	Mini secretiet meeting hall	Sumit Kumar	JE	PR

Finding incorporated in training module

- Careful selection of training participants recommended
- Emphasis on benefiting villagers through the scheme
- Villagers should benefit from conversion schemes like sprinkler and drip irrigation.
- Involvement of line department field level officials in capacity building training recommended

Annual Action Plan (AAP) & Monthly Action plan (MAP)

After conducting the TNA, revised Annual Action Plan of the Gram Panchayat Level trainings was prepared and submitted to the DPMU for their review and approval. DPMU shared their inputs and same was incorporated and then after the revised AAP was submitted to DPMU for approval. After, approval of the AAP by DPMU, the same was submitted to SPMU for vetting and approval. Then after, as per the suggestions of SPMU the final AAP was submitted to SPMU for approval.

Monthly Action Plan of the Gram Panchayat Level trainings was prepared and submitted to the DPMU for their review and approval. DPMU shared their inputs and same was incorporated and then after the revised MAP was submitted to DPMU for approval. After, approval of the MAP by DPMU, the same was submitted to SPMU for information.

Development Of training Module

Yuva mitra has prepared the draft training content of all 6 Gram Panchayat Level trainings Modules based on the approved Training Need Assessment report and same was shared with SPMU for review and inputs. After incorporation of all inputs given by SPMU, the draft training modules were developed and shared with SPMU for review and accordingly, as per the guidance of the SPMU team the Modules were finalized and got approved at SPMU level.

Execution Of Trainings

Details Of Trainings Conducted

- The trainings are designed to be participatory and interactive to encourage engagement and learning among participants
- The impact assessment of capacity building trainings conducted under the Atal Bhujal Yojana in the district was conducted through feedbacks and direct interviews.

- The trainings were organized following the tailored approach considering the specific needs of the community.
- Step-by-step approach was followed, starting with an introduction to the ABY and its objectives, and then moving onto more specific topics related to groundwater management.
- Follow-up sessions were also conducted to reinforce learning and ensure the participants are applying the knowledge & skills gained during the training in their work.
- The trainings were conducted by event manager and subject matter experts with experience in groundwater management and capacity building to ensure the qualitative input.
- Overall, the approach and methodology used for the capacity building trainings under the ABY aim to ensure that the participants gain the knowledge and skills needed to effectively manage ground water and improve the sustainability of this valuable resource.
- Emphasis was given to cover all the aspects of ground water management relevant to the target group, In the first event, an introduction to the Atal Bhujal Yojana was given and the objectives and significance of the scheme were explained.
- During the trainings trainers explained about conversion schemes of demand & supply side. People were sensitized about Govt. Schemes and how to approach to get the benefits of Govt. schemes brochures and leaflets and other related IEC material was also distributed in each training.
- Demands under micro irrigation, drip irrigation was collected and shared with SPMU through Google spread sheet, keen interest was shown by the targeted audiences to enrolled themselves for M.I. Schemes.

Module wise Report of training Conducted

1st Module – Atal Bhujal yojna

Topics covered – 1) What is the Atal Bhujal Yojana, its objectives, and importance?

- 2) Concerns about declining groundwater levels
- 3) Assessment of groundwater levels in your village
- 4) Demand area and supply area
- 5) Discussion on DLI#1
- 6) Role of farmers, women, and VWSC in groundwater management
- 7) Discussion on grant schemes
- 8) Information on rain gauges, flow meters, water level indicators, FTK, and piezo meters
- 9) Discussion on water security plans and water budgets
- 10) Measures for water security

Points identified to be included in the training schedule

Prior starting the **first (1st) module's** trainings on ground a two days residential TOT conducted by Yuva Mitra at Canal Rest house Conference Hall. As per SOP The topic of first module was Orientation of Atal Bhujal Yojana in the first phase training Total 17 trainees of Yuva Mitra attended the the training & got the training. The H.O representatives of Yuva Mitra also facilitated the trainers., DPMU representatives, DIP representative and HIRD recourse person facilitated the trainee on various topics related to the scheme.

List of participants attended TOT:

Sr. No.	Date of TOT conducted	Time (From... to)	Venue	Name of Participant	Designation	Gender (Male/Female/Other)	Mobile No.
1	28-11-22	10:00 – 6:00	Irrigation Department	Rinu kumari	Master Trainer	Female	7027882322
2	28-11-22	10:00 – 6:00	Irrigation Department	Renu Yadav	Master Trainer	Female	8683070875

5th Module Details – Efficient water use practices in Agriculture. Suitability, benefits and limitations.

- Topic covered -**
1. Promotion of drip in cotton with full package of practices.
 2. Promotion of laser land leveler technique in various crops & wheat cropping systems.
 3. Activities related to behavioral change such as water games related to Sustainable Groundwater Management.
 4. Discussion about the information on the Hoardings being installed at GP level (To be done by the trainer at the site of installation of hoardings).
 5. Discussion regarding the sun-boards being installed at GP level. The purpose is to disclose the data under DLI#1. The trainer should discuss the following details of the sun-board:
 - a. Declining trend in groundwater level
 - b. Yearly rainfall data
 6. - Water Quality

6th Module Total Participants 1252 in which 570 are male & 680 Female , Farmers are 570 VWSC 32 , 8 students & 25 AWW

In the 6th module Stakeholders covered – Total participants 1249 in which male are 569 and female are 680 . Farmers -510 , VWSC - 63 , student- 25 , AWW -36 and others – 615

Case study -

Best practices adopted in GP Lad ,Block- Badhra Mr. Dinesh Farmer has taken Bagwani scheme from Horticulture Department on 100% subsidy 100*120*12 storage tank is created for Baag on 12 acre farm land. 30% fund will be released when tank will be completed and 70% remaining subsidy will be given when plantation is done in Baag main crops to be grown are Kinnu, etc

Quarterly review by SPMU through VC

SPMU conducted quarterly review meetings through video conferencing (VC) in each quarter to monitor the block-wise progress of Gram Panchayat Level trainings. During these review meetings, the agency shared the achievements, including the number of trainings conducted, as well as the major accomplishments and challenges faced at the ground level.

In the 1st quarter, 12 trainings were conducted in Bardha block. In the 2nd quarter, a total of 85 trainings were held, followed by 126 in the third quarter, and 69 in the fourth quarter for capacity building.

During the quarterly reviews, the SPMU shared valuable input with the CB Agency for

the improvement and effective implementation of the Atal Bhujal Yojna.

Half Yearly review by SPMU through VC

A half-yearly review meeting was conducted by the SPMU through video conferencing to monitor the block-wise progress of Gram Panchayat Level trainings. During this review meeting, the agency shared achievements, including the number of Block Level trainings conducted, as well as major accomplishments and challenges faced at the ground level.

Impact assessment report half yearly.

The capacity-building training sessions held in the Behel block between December 2022 and April 2023 have resulted in substantial positive outcomes, as detailed below:

The community has acquired knowledge about the Atal Bhujal Yojana, understanding its objectives, the importance of groundwater management, reasons for groundwater depletion, and strategies to protect it. Individuals have learned to use various instruments, including rain gauges, piezometers, and water flow meters. Farmers are now utilizing water flow meter data to assess crop-water requirements, making informed decisions to shift from water-intensive to non-water-intensive crops. Participants have been briefed on the schemes of line departments, such as agriculture

and horticulture, implemented through the convergence of the Atal Bhujal Yojana. The community has been motivated towards conserving groundwater resources. Interest has been expressed by participants in acquiring techniques for rainwater harvesting and rooftop rainwater harvesting to recharge groundwater. Beneficiaries have adopted efficient water practices, such as drip and sprinkler irrigation, crop diversification, and Direct Seeded Rice, resulting in positive outcomes. The identification of Bhujal Saheli as a Women Volunteer for community mobilization under the Atal Bhujal Yojana in each Gram Panchayat has led to increased women participation in Groundwater

Impact Assessment Annual:

The training underscored the promotion of water conservation techniques and government-implemented schemes aligned with these objectives. Participants received information about current water levels, quality, and observed declining trends compared to historical data. The community was encouraged to address the water gap by creating their Gram Panchayat Water Budget and Water Security Plan, involving various stakeholders at the Gram Panchayat level. The collaborative effort successfully conveyed the essence of the Atal Bhujal Yojana, emphasizing community mobilization, participation, and ownership.

Training agencies played a crucial role in building the capacities of the rural community through these training sessions. As a result, stakeholders at the Gram Panchayat level have been inspired by the teachings of the training agency, exhibiting a keen interest in embracing a variety of demand and supply-side interventions. This shift in mindset and the adoption of sustainable practices reflect the positive impact of capacity-building initiatives in promoting responsible water usage and conservation within the community.

1. Participatory Groundwater Management

- Increased community involvement in managing groundwater resources.
- Enhanced awareness about sustainable groundwater practices.
- Reconstruction of water security plan.

2. Common Pool Resource Management

- Improved community understanding of shared resource management.
- Strengthened collaboration for effective utilization of common resources.

3. Demand-Side Micro Irrigation System Intervention

- Adoption of micro-irrigation practices leading to water-use efficiency.
- Economic benefits observed through increased crop yield.
- Micro irrigation area covered 265.78 ha

4. Supply-Side Water Conservation Structures Intervention

- Implementation of water conservation structures for improved water availability.
- Farm pond constructed through Horticulture department -2
- No of ponds jejunation through Panchaty Raj Department - 1
- Rainwater Harvesting structures - 3
- Injection well through Agriculture department - 8
- Mitigation of water scarcity through strategic infrastructure development.

5. Women Participation

- Increased participation of women in water management decisions.
- Empowerment of women through active involvement in water-related activities.

6. Behavioral Change

- Positive shifts in community behavior towards sustainable water practices.
- Awareness regarding the impact of individual actions on groundwater resources.

7. Ownership

- Strengthened sense of ownership among community members for water resources.
- Increased responsibility towards maintaining and preserving water infrastructure.

Major Outcomes: -

Sr. No.	Detail of Outcome
1	Enthusiastic participation characterized the training program, with an engaged attendance of approximately 25-35 participants in each Gram Panchayat (GP) level session. Participants demonstrated keen interest and actively contributed to the training sessions, highlighting the program's success in capturing their attention and encouraging active involvement.
2	All targeted 47 Gram Panchayats in this block, (100%) of them, were covered under GP level trainings.
3	A total of 282 GP level trainings were conducted, achieving 100 % of the target set for GP level trainings.
4	A total of 6124 community members, including 3261 males and 2863 females (comprising GP/VWSC members, SHGs, Farmers, AWWs, ASHA, etc.), were trained during these sessions.
5	Hands-on training sessions on the usage of various tools such as Rain Gauges, Flow Meters, Water Level Indicators, FTK, and Piezo Meters were conducted in

	all targeted 47 Gram Panchayats in this block during GP Level trainings.
6	Exposure visits were organized for community members from all targeted 47 Gram Panchayats to various locations for cross-learning and experience sharing. Farmers learned and adopted new farming techniques/technology with the objective of conserving groundwater.
7	These capacity-building trainings have elevated the community's awareness levels, leading to an increased demand for both demand and supply-side interventions in these Gram Panchayats.

Thank you
